

## AT GLANCE

Pioneer Gas Power Limited (PGPL), a Public Limited Company since 2009, is managed by a team of experienced & enterprising professionals with vast knowledge in Distillery, Bio-mass & Bio-gas power Industry.

PGPL is setting up a 388 MW Gas Based Combined Cycle Power Plant (CCPP) at Vile Bhagad, Mangaon Taluk, Raigad District, Maharashtra. The site is 120 K.M. away from Mumbai airport and is near to Mumbai-Goa National highway (NH- 17). The Plant is designed to use eco-friendly Natural Gas to provide a pollution free environment. The technology & equipments to be used in the Power Plant will be of highest standards ensuring the highest level of availability.

PGPL project enjoys considerable advantages such as:

1. Maharashtra Industrial Development Corporation (MIDC) has leased the land to PGPL to set up the Power Plant.
2. The Dhabhol-Dahej Pipe line of GAIL which will supply Gas is only 8 Kms from the site and Spur Line connecting our Plant in the shortest possible time.
3. The site is located at 120 km from Mumbai Airport and 90 KM from Pune airport. The location provides close proximity to large consumers of power.
4. Complete Power Evacuation within 4 Kms.
5. The Project site is located in the state of Maharashtra, the second largest power deficit state in the country and also the fastest growing state with large industrial consumers around.
6. MIDC Vile Bhagad area is fully developed and well networked by roads.
7. PGPL has received consent from MIDC for providing the required water for the project.
8. The Geographical location and weather conditions are best suited for the enhanced performance of equipments.

- The site is adequate for the Phase I and Phase II of PGPL's Plant. Once the Phase I become operational, the company intends to go for expansion (i.e. Phase II) by a similar capacity.

- PGPL aims to become India's leading eco-friendly power producers contributing to the Clean Development Mechanism. Also, the company is looking out for opportunities for the expansion of its business, using forward or backward integration.
